

Nutrition as Therapy Billing

NUTRITION AS THERAPY

Patients are realizing the value of nutrition therapy in the management of chronic illnesses, which is driving up demand for it.

INSURANCE COVERAGE

When administered by licensed healthcare providers, medical nutrition therapy (MNT) is covered by Medicare and private insurance.

CODING AND DOCUMENTATION

Precise coding with CPT codes 97802-97807 and thorough documentation are necessary for billing to be completed successfully.

MEDICARE GUIDELINES

Medicare will pay MNT under stringent guidelines for individuals with certain diseases such as diabetes, renal disease, and post-kidney transplant.

COLLABORATING FOR SUCCESS

Outsourcing with professional medical billing companies to handle billing simplifies procedures, lowers errors, and guarantees compliance to boost income.

CHALLENGES WITH BILLING

Difficulties with billing include limited coverage, strict documentation requirements, and denials but they can be addressed with the right approaches.

REVENUE OPTIMIZATION

To maximize payments, it's essential to follow billing requirements, document medical necessity, and optimize coding methods.
